BUCKS ON THE AIR

TELEVISION

Milwaukee Bucks telecasts of regular season games will be available statewide on the Bucks Television Network. The flagship station of the network is WCGV-TV 24 in Milwaukee for regular season games.

WCGV-TV 24
Provides coverage of regular season games on over-the-air television to the greater metropolitan Milwaukee viewing audience.

RADIO

Radio broadcasts of all Milwaukee Bucks home and away games are originated by **WTMJ**, Milwaukee's CBS Radio affiliate at 620 on the AM dial. Games are fed to a two-state network of over 30 stations throughout Wisconsin and upper Michigan.

Ted Davis is in his third season as the "Voice of the Bucks" and twelfth as an NBA broadcaster. WTMJ-TV 4 Sports Director **Dennis Krause** joins Davis to provide color analysis for all home games. This is Krause's fourth year as radio analyst.

In addition to game coverage, WTMJ also will originate "Bucks Central with George Karl" from the WTMJ studios. Hosted by **Bill Michaels**, the show is a mix of Bucks information, fan call-ins, and live guests from the Bucks and the NBA. "Bucks Central" airs between 7:00 and 8:00 p.m. Before selected home games, WTMJ originates live programming from courtside at the Bradley Center. A mix of NBA and Bucks news, features, interviews and lively conversation will provide a basketball lead-in to the actual game broadcasts.

WTMJ Radio and WCGV-TV 24 are the flagship stations of the Milwaukee Bucks radio and television networks.

HEARING & VISUALLY IMPAIRED FANS CAN HEAR THE "VOICE OF THE BUCKS" WITHIN THE BRADLEY CENTER

Bucks fans attending home games in the Bradley Center are able to listen to game broadcasts of Ted Davis, the "Voice of the Bucks," and Dennis Krause on their personal radios. The Bradley Center, in an effort to aide hearing and visually impaired patrons, installed an AM radio transmitter in the building at the outset of the 1993-94 campaign.

While the system was designed to aid the hearing and visually impaired, all fans can enjoy the benefit. Any patron bringing an AM radio and tuning to 530 AM will be able to listen to the entire broadcast of the game. Programming on the frequency begins approximately one hour prior to each home game (at the time doors to the Bradley Center open to the public) with an informational recording which provides details on the building, services, promotions of upcoming events, and other newsworthy items. The pre-recorded message is switched over to the game broadcast shortly before the game begins.

The Bradley Center also has a number of portable "belt-pack" AM/FM Radios and headsets as well as teleloops available at the Administration Office located on the north side of the outer east atrium. Teleloops are a collar-like device, which plug into a radio and allow hearing impaired patrons with a "T" coil or "T" switch on their hearing aids to receive the signal in their hearing aids without removing them.

In order for a patron to check out a radio at the Bradley Center Administration Office, a valid driver's license is required for deposit.

"NBA INSIDE STUFF" ON WTMJ-TV 4

NBA Inside Stuff, the weekly magazine show of the NBA, is in its tenth season on NBC. In 1993-94, *Inside Stuff*, which airs Saturday mornings on WTMJ-TV 4 in Milwaukee, began its 52-week schedule for the first time ever. Executive Producer, Managing Editor and co-host **Ahmad Rashad** and co-host **Summer Sanders** enlighten fans to the not-so-often seen side of the players and personalities that make up the NBA and WNBA.

Rashad, who has been with the show since its inception in 1990, has conducted in-depth interviews with NBA superstars such as 1998 NBA Finals MVP Michael Jordan, 1994 NBA MVP Hakeem Olajuwon, 1996 Olympic gold medalist Charles Barkley and the Bucks own Ray Allen.

Sanders joined the *Inside Stuff* team as a special correspondent in December 1997 and was named co-host in July 1998. In addition to Rashad, Sanders will go behind-the-scenes to give viewers a unique perspective on the game and its players.

Seen each month by more than 2.5 million people between the ages of 12-17 years-old, *Inside Stuff* continues to give the viewer a unique perspective of the game of basketball by using trademark segments such as the trendsetting "Jam Session," which matches the week's most spectacular dunks to the hottest music on the charts; and "Rewind," a lighthearted review of the week's happenings in the NBA.

During the 1997-98 season, *Inside Stuff* traveled to Paris, New York City, San Diego, Salt Lake City, Chicago and Vancouver. The show also broadcast from the 1996 Summer Olympics in Atlanta and went to Toronto for the 1994 World Championship of Basketball.

Inside Stuff is produced by NBA Entertainment, Inc., the production and programming unit of the NBA. NBA Entertainment, Inc. is the exclusive licensor for all NBA game footage.

GENESIS OF BUCKS LOGO & NICKNAME

On January 22, 1968, the National Basketball Association awarded a franchise to a Milwaukee group headed by Wesley D. Pavalon and Marvin L. Fishman. The group, called Milwaukee Professional Sports and Services, Inc., named Pavalon its President and Fishman Executive Vice President. The date of incorporation was February 5, 1968.

An application from Milwaukee Pro was registered with the Wisconsin Department of Securities for the sale of 300,000 shares of common stock to Wisconsin residents at $5 per share. Because the issue caught public fancy, an additional 125,000 share were offered when the stock opened on the over-the-counter market on April 24, 1968.

On the basketball side of the operation, the team went through both the college and expansion draft under the watchful eye of the team's first head coach, Larry Costello.

All of these developments came about for a team that had yet to gain a moniker. That changed on May 22, 1968 when Milwaukee's second professional basketball team finally got a name—the Milwaukee Bucks. More than 14,000 fans participated in a team-naming contest. According to the 1969-70 Milwaukee Bucks yearbook (which is now referred to as a media guide), R.D. Trebilcox of Whitefish Bay, Wisconsin, was one of 45 persons who suggested the name "Bucks." His reasoning—"Bucks are spirited, good jumpers, fast and agile." Mr. Trebilcox won a new car for his efforts in helping to position Milwaukee's entry into the professional sports would with an enduring nickname.

With a name for the franchise in hand, Bucks executives went to work on developing a logo and colors. The majority of the task fell to John Erickson, who commissioned Milwaukee commercial artist Matt Kastelic to develop the team's first logo. The original logo featured a caricature of a buck wearing a sweater emblazoned with the letter "B" and spinning a basketball on one hoof while sitting on top the words "Milwaukee Bucks."

The original official team colors of forest green, red and white were in use since their inception in 1968 through the 1987-88 season, although red was removed from the color scheme of the uniforms for the 1985-86 season and beyond. In 1988-89 the club adopted various hues of green: forest, kelly and lime, with a white accent. The changes in color did not affect the logo.

Then on May 23, 1993, the club, coming off its 25th anniversary season, announced that Milwaukee's NBA franchise would be represented by a new logo as well as new uniforms for the 1993-94 NBA season and beyond. During the 1992-93 season a transitional logo was utilized which featured the original logo superimposed over a triangle with a ribbon-like banner carrying word of the 25th Anniversary of the club—1968-1993.

The new logo depicts and aggressive, frontal view of the head and shoulders of an eight-point white tail buck (a male deer) on a triangular background atop stylized Milwaukee Bucks lettering. The color scheme features hunter green, purple and silver. The three colors are currently utilized on all uniforms, warmups and other official apparel and gear as well as on the logo itself.

Green was retained as a link to past accomplishments. Purple was introduced as a contrasting color and one that, while currently in vogue, will stand the test of time. Silver provides a perfect accent and serves to highlight the deep rich hues found in the forest green and purple. A number of color combinations were tested before the final combination became reality.

In making the announcement of a new logo, John Steinmiller, Bucks Vice President of Business Operations, commented that "the new Milwaukee Bucks logo is intended to carry the organization through the 1990's and into the next century as an impactful and memorable identifier. It reflects the new look of the Bucks team and is in keeping with the goals of the NBA and NBA Properties for teams to maintain a current and powerful presence in their local markets as well as nationally."

The new logo was designed by the Milwaukee Department of NBA Properties, Inc., in an effort headed by Creative Director Tom O'Grady. "The new Milwaukee Bucks logo is an image of strength and focused determination," according to O'Grady. "The solid logo design, incorporating the powerful Buck, portrays a confident, cohesive team. It is one unit, an attribute of any good team. The Buck itself gazes steadily ahead, as if to accept any challenge that may lay in its path. The theme of solidarity is repeated upon through the physique of the muscular buck and the heavy block lettering. The unique combination of colors: hunter green, purple and silver, display a regal spirit of character. The combination of these elements serves to create an impressive figurehead for the Milwaukee franchise. The design of the logo is contemporary but not trendy, and should be a logo the Bucks use for many years to come."

To celebrate the 30th anniversary of the franchise during the 1997-98 season, the Bucks used a hybrid of the first two logos. The hybrid marries the original caricature of "Bango" with the 1990's style powerful Buck along with a modified triangle and the words 30th anniversary.

Milwaukee's first professional major league basketball team was the Milwaukee Hawks who played in the Milwaukee Arena from the 1951-52 season through the 1954-55 season before moving to St. Louis, where a fellow by the name of Bob Pettit led them to great prominence and an NBA Championship in 1958. While in Milwaukee, one of the Hawks backcourt aces was 5'10" guard William "Red" Holzman, who went on to coach the New York Knickerbockers to NBA Championships in 1970 and 1973.

BANGO - THE BUCKS MASCOT

Bango, the Milwaukee Bucks mascot, was born October 18, 1977. That date signified the home opener of the 1977-78 season for the Bucks. The game pitted Milwaukee against the Kareem Abdul-Jabbar-led Los Angeles Lakers in the Milwaukee Arena.

For the Bucks, it was the first regular season appearance of "Green and Growing" rookies Kent Benson, Marques Johnson and Ernie Grunfeld.

Bango was a phrase coined by Eddie Doucette, the original "Voice of the Bucks," whenever a player connected on a long-range basket. When the club held a contest to name their new mascot, a few thousand entries were received. The most popular of which was Bango. Sherry Kussman of New Berlin, Wisconsin won a drawing among seven people who submitted the Bango name. For her efforts, Sherry won a pair of season tickets.

THE BRADLEY CENTER

The Bradley Center
Home of the
Milwaukee Bucks

The 1999-2000 season marks the 12th year that the Milwaukee Bucks will call the Bradley Center home.

The 20,000-seat sports and entertainment facility, acclaimed as one of the finest arenas in the country, opened October 1, 1988. The $91 million structure is a gift to the Milwaukee community and State of Wisconsin from Jane Pettit, and her former husband, Lloyd, in honor of Mrs. Pettit's father, Harry Lynde Bradley. Mr. Bradley was one of the founders of the Allen-Bradley Co., a national manufacturer of electrical controls headquartered in Milwaukee, now a subsidiary of Rockwell International.

The Bradley Center covers more than one square city block and rises to a height of 13 stories. The exterior is clad in polished and flame-treated South Dakota granite. The same red-pink granite is used in the pedestals for the columns in the twin glass-enclosed, 60-foot high atriums. The interior of the facility is divided into four quadrants and features 16 escalators, 12 concession stands with closed circuit televisions, four merchandise stands, and 28 restrooms, all handicap-accessible.

The main arena consists of three levels of seating rather than the traditional "bowl" found in a majority of similar buildings. Seating on the first concourse slopes down 23 rows from the concourse entrances to the edge of the playing surface and can accommodate approximately 7,200 people. A single row of 68 private suites, with seating for nine to 12, encircles the entire arena directly above the first concourse and just 30-feet above floor level. Access to this area is limited to suite holders and their guests. The third concourse, slightly concave in its design, rises 21 rows to a height of approximately 85 feet. The suite level and third concourse seat a total of 11,500 fans.

The 1995-96 season marked the debut of a brand new scoreboard in the Bradley Center. In September 1995, installation was completed on the Sony JumboTron JTS-17. The scoreboard features the largest center-hung large screen video display in North America. Each of the four screens measures 9.65' x 12.86'. Four ribbon boards in each corner of the building provide fans with additional information.

A new basketball court, dedicated solely to the Milwaukee Bucks, was installed at the onset of the 1998-99 season.

During the summer and early fall of 1999, the Milwaukee Bucks and the Bradley Center began Phase I of a combined effort intended to add amenities to the seating area, lobbies and concourses, and exterior of the Center.

The most dramatic of these new fan-friendly improvements is the addition of two new "video billboards" at the north and south ends of the seating area. These large LED displays are manufactured by Mitsubishi and measure approximately 13' high by 23' long (compared to the Sony JumboTron screens in the center scoreboard which are 10' x 13').

In addition to these video boards, new message centers have been added in the four corners of the arena. These bulb displays will offer player and game statistics, out-of-town scores, and a variety of other text messages. Other Phase I projects include banner and landscaping programs as well as new message centers at the four entrances to the Bradley Center.

The Bradley Center is an accessible facility with a variety of accommodations for patrons with limited mobility or special requirements. One door at each of the two main entrances is operated by an electronic touch pad for easy opening and there is seating on the first and third concourses for disabled persons. In addition, a special keyboard telephone is available for the hearing impaired.

Behind the scenes, the latest in computerized and electronic equipment controls the heating, air conditioning, ventilation, security and communications systems for the building. Most of these functions are monitored from a central control room on the ground floor. The facility also contains a unique street level entry that allows semi-trailers to be driven inside the building for convenient unloading and loading.

State-of-the-art electronics and interior circuitry also assist the media in covering events at the Bradley Center. As many as four television stations are able to telecast simultaneously from any of three locations in the arena. In addition, members of the media may transmit as well as receive information within the building.

The Bradley Center is also home to the Marquette University Basketball team, Milwaukee Admirals professional hockey team, Milwaukee Wave soccer team, and the Milwaukee Mustangs of the indoor football league. But sporting contests are not the Center's only attractions. The facility has and continues to play host to a variety of other entertainment events including concerts, figure skating and family shows.

The Bradley Center was designed by Hellmuth, Obata & Kassabaum of Kansas City, Missouri, and Venture Architects, which was a joint venture between the Milwaukee architectural firms of Kahler Slater, Torphy Architects and the Zimmerman Design Group.

BUCK SHOT

BUCKS POST BIGGEST COMEBACK IN NBA HISTORY

The 1977-78 edition of the Milwaukee Bucks are generally recognized to have posted the biggest single game comeback in NBA history. On November 25, 1977 the Milwaukee Bucks faced the Atlanta Hawks at the Omni in Atlanta. With 8:43 remaining in the fourth period and Atlanta leading the Bucks by 29 points (111-82) the stage was set for a most improbable comeback.

The "Comeback Kids," as the Bucks were tabbed back then for this game and similar amazing performances where they pulled games from the fire, won the game 117-115 on two free throws by Marques Johnson with one second to play. Junior Bridgeman, a.k.a. "The Torch," scored 24 points in 26 minutes on 11-15 field goals and 2-3 free throw shooting negating a 30-point effort in 32 minutes by the Hawks John Drew.

"Incredible," whispered a stunned and exhausted Bridgeman after the game. "I don't think I've ever seen anything like it." Bridgeman was dubbed "Reverend Radar" by teammate Lloyd Walton.

"When we were down by 29, it was so discouraging because we were really trying hard," said Ernie Grunfeld at the time. "They were playing a zone the whole time, and we just went flat against it. So we tried to trap them on defense, and before you knew it we were only down by 10. Ten point leads are nothing in the NBA." Grunfeld also commented that with the exception of winning the gold medal in the 1976 Olympics, a basketball game never had excited him like this one did.

Other memorable comebacks in NBA history include a game in which the Boston Celtics trailed the Sacramento Kings by 25 with 4:35 to play in the third during the 1995-96. season and New York overcoming a 25 point deficit to Boston on Christmas Day, 1985 with 6:39 in the third.

THE HERB KOHL EDUCATIONAL FOUNDATION ACHIEVEMENT AWARD PROGRAM

The Kohl Foundation Achievement Award Program was established in January 1990, and through 1999 has awarded over $3 million to Wisconsin educators, students and schools. It provides grants annually of $1,000 to 200 graduating high school seniors, 100 teachers and 100 schools throughout Wisconsin.

Selection of the student recipients begins at the local level, with the number of nominations from each high school based on enrollment. The names of local nominees are sent to regional selection panels, composed of teachers, administrators, civic leaders and newspaper people. Final selection is made by a statewide committee composed of civic leaders, representatives from the Department of Public Instruction, Wisconsin Association of Nonpublic Schools, Wisconsin Cooperative Educational Service agencies, the Wisconsin Newspaper Association and several education-related associations.

Student award recipients are chosen for their demonstrated academic potential, outstanding leadership, citizenship, community service, integrity and other special talents.

The teacher nomination process begins within each public school district, or nonpublic school organization. Further screening takes place at the regional level, and the statewide selection committee chooses the award recipients.

Teachers are chosen for their superior ability to inspire a love of learning in their students, the ability to motivate others, and for their leadership and service within and outside the classroom.

In addition, Herb Kohl developed a new scholarship in 1997 for the average student. The Herb Kohl Educational Foundation created an achievement scholarship totaling $1,000 for high school graduates who happen to fall short in obtaining academic scholarships. These students are selected on the basis of overcoming substantial personal and family obstacles to maintain their current academic level.

INJURY SUMMARY

For the 1998-99 season the Bucks accumulated 97 player games due to injury or illness. Paul Grant and Sam Cassell provided the bulk of the total accounting for 32% and 30% respectively.

Three players; Ray Allen, Ervin Johnson and Michael Curry; who were on the Milwaukee roster the entire season played in all 50 games.

The total of 97 games missed due to injury, illness or other reason ranks as the seventh most injury free season since statistics in this area were first charted beginning in the 1981-82 season. If one were to extrapolate the numbers and play the 1998-99 figures over a full 82-game slate, the numbers say the Bucks would have had 160 missed games due to injury or illness which would make it the 13th ranked season in the past 18 campaigns.

The all-time club low of 10 games missed in this category was recorded by the 1994-95 edition of the Bucks. Incidentally, that 10 game mark is also the lowest since the League began to track this statistic back in the 1986-87 season, breaking the mark of 12 set by Detroit in 1989-90.

Over the last 22 seasons (since 1977-78), the Bucks have totaled 2,394 player games missed due to injury, illness, suspension or other reason for an average of 108.8 per season.

Here's the 1998-99 breakdown by player: Grant 31, Cassell 29, Honeycutt 9, D. Curry 8, Williams 7, Marshall 5, Robinson 3, Brandon 2, Del Negro 2, and Gilliam 1.

The League-wide total for the 1998-99 season was 3,715 games missed or 128 manpower games lost per team. That represents a decrease from the 1997-98 season when players were sidelined for 6,177 games or 213 manpower games per team. The 1996-97 figures of 6,325 games missed represent the high-water mark in this statistical category. Keep in mind the NBA became a 29 team League with the inclusion of Toronto and Vancouver beginning with the 1995-96 season.

The Boston Celtics registered what is generally recognized to be the all-time NBA high of 480 manpower games missed due to injury during the 1996-97 season, topping the marks of 388 held by the 1987-88 edition of the Los Angeles Clippers and 386 set by the 1985-86 New York Knickerbockers.

By year, here is the Milwaukee breakdown: 1977-78 (20), 1978-79 (99 – David Meyers missed the entire season due to a bac back), 1979-80 (52), 1980-81 (41), 1981-82 (106), 1982-83 (163), 1983-84 (84), 1984-85 (137), 1985-86 (108), 1986-87 (217), 1987-88 (195), 1988-89 (191), 1989-90 (235), 1990-91 (116), 1991-92 (95), 1992-93 (216), 1993-94 (21), 1994-95 (10), 1995-96 (18), 1996-97 (61), 1997-98 (100), 1998-99 (97).

BUCK SHOT

FIRST NBA CHAMPIONSHIP

The Bucks earned a championship faster than any expansion team in professional sports history. Milwaukee captured the 1971 NBA title in just its third season of play. The 1970-71 Bucks posted a 66-16 mark on their way to the Midwest Division crown. Milwaukee, under Coach Larry Costello, beat San Francisco 4-1 and the Los Angeles Lakers 4-1 before sweeping Baltimore 4-0 for the NBA Championship.

BUCK SHOT

WISCONSIN'S MAJOR PRO BASKETBALL HISTORICAL PAST
PRE-MILWAUKEE BUCKS

Wisconsin has had a trio of major professional basketball franchises preceding the Milwaukee Bucks. The Milwaukee Hawks who played home games in the Milwaukee Arena from the 1951-52 season through the 1953-54 season is the most recentbasketball team in Wisconsin history pre-dating the Bucks. Eventually, the Hawks relocated to St. Louis for the 1955-56 season and became the Atlanta Hawks in 1968. Furthermore, the Sheboygan Redskins had a prominent National Basketball League franchise winning the 1943 NBL championship with future Hall of Fame guard Buddy Jeanette. Finally, the Oshkosh All-Stars round out the trio. The All-Stars won two NBL championships in 1941 and 1942. Oshkosh was led by Leroy "Cowboy" Edwards, a 6'6" All-American center from the University of Kentucky.

BUCK SHOT

LONGER-RANGE THREE-BALL

Three-point field goals came into effect with the 1979-80 season. The line was moved inward from 23'9" at the apex and 22' in the corners to a uniform 22' arc beginning with the 1994-95 season. However, the 1997-98 season marked the move of the NBA three-point line to its original distance of 23'9". Dale Ellis holds the Bucks record for three-point shooting percentage at 42.3%, making 168 of 397 attempts.

BUCK SHOT

BUCKS GAMES POSTPONED DUE TO WEATHER

In the 31-year history of the Milwaukee Bucks there have been only two documented games that have been postponed due to weather.

The first incident occurred on January 12, 1982 when two inches of snow in Atlanta virtually closed the city. Many Hawks players were prevented from reaching the Omni due to the hazardous conditions. The Bucks were there and actually scrimmaged that night as their hotel accommodations were adjacent to the basketball arena.

The second was on March 4, 1985 when the Bucks were scheduled to play the Detroit Pistons at the Pontiac Silverdome. Heavy snow and ice on the roof of the Silverdome caved in and eventually tore through a portion of the fabric roof resulting in snow failing on and near the court. The game, along with the remaining regular season Pistons games, was rescheduled to be played at Joe Louis Arena in downtown Detroit.

Perhaps the most infamous weather-related problem in Bucks history occurred on January 8, 1989. The night before, the Bucks had won a hard-fought double-overtime victory against the Washington Bullets in Landover, Maryland. The team boarded a plane in Washington, but due to heavy fog in Milwaukee, the club was diverted to Grand Rapids, Michigan. The club embarked on a 4 1/2 hour bus ride to Milwaukee and arrived at the Bradley Center at 8:00 p.m., the scheduled starting time. The game was pushed back to 9:15 p.m. and the Bucks scored a surprising 107-89 victory over the stunned Utah Jazz.

MILWAUKEE BUCKS PLAYOFF HISTORY

1969-70—The Bucks (56-26) finished second in the Eastern Division behind the 60-win New York Knickerbockers, Division Semifinals: Milwaukee beats Philadelphia 4-1 to advance to the Division finals vs. the Knicks, who had beaten the Baltimore Bullets 4-1. Division finals: N.Y. beats Milwaukee 4-1 and then goes on to edge Los Angeles 4-3 to become NBA champions.

1970-71—The Bucks (66-16) finished first in the Midwest Division with the best record in the Western Conference. Conference Semifinals: Milwaukee beats San Francisco 4-1 to gain the right to face Los Angeles in the Conference finals as the Lakers edge Chicago 4-3 in the other Conference Semifinal. Conference Final: Milwaukee beat L.A. 4-1 and earns the right to face Eastern Conference winner Baltimore which edged the Knicks 4-3. Championship Series: Milwaukee captures its first NBA crown with a 4-0 sweep of the Bullets.

1971-72—Milwaukee again sits atop the Midwest Division at 63-19, second best record in the Western Conference. Conference Semifinals: Milwaukee beats Golden State 4-1 to advance to the Conference final vs. 69-win Los Angeles who had beaten Chicago 4-0 in the other Western Conference Semifinal. Conference Final: Milwaukee is beaten by Los Angeles 4-2.

1972-73—Bucks third straight 60-win or better season brings them their third straight Midwest Division title and ties them with L.A. for the best record in the Western Conference at 60-22. Conference Semifinals: The Bucks are ambushed by Golden State 4-2.

1973-74—Milwaukee wins its 4th straight Midwest title at 59-23. Conference Semifinal: Milwaukee beats Los Angeles 4-1 and advances to play Chicago, who defeated Detroit 4-3 in the other Western Conference Semifinal. Conference Final: The Bucks beat the Bulls 4-0 and meet Eastern Conference champion Boston who had beaten New York 4-1. Championship Series: In one of the classic championship series, the Celtics beat the Bucks 4-3.

1975-76—The Bucks top the Midwest Division (38-44) with the sixth best record in the West. Western Conference First Round: Bucks are beaten in a miniseries by Detroit 2-1.

1977-78—Milwaukee finished second to Denver in the Midwest at 44-38. Western Conference First Round: The Bucks surprise the favored Phoenix Suns and sweep a miniseries 2-0. Conference Semifinal: The Bucks run up against Midwest champ Denver and lose an exciting and hard fought series 4-3.

1979-80—The Bucks top the Midwest Division with a 49-33 mark and get a bye in the first round of the playoffs. Conference Semifinals: Bucks meet the Supersonics who had nipped the Portland Trail Blazers 2-1 in the first round, and lose a tough, rough seven game series 4-3.

1980-81—Bucks shift to the Eastern Conference and the Central Division and top that group with a 60-22 mark to receive a bye in the first round. Philadelphia beats Indiana 2-0 for the right to face Milwaukee in the semis. Bucks lose to Philly 4-3 in a hard fought series.

1981-82—The Bucks top the Central Division for the second straight year posting a 55-27 record, have a bye in the first round and then meet the Philadelphia 76ers who had beaten Atlanta 2-0 in the miniseries. Conference Semifinals: Milwaukee loses to the Sixers 4-2.

1982-83—For the third consecutive year the Bucks are kingpins of the Central Division, while winning their ninth overall division crown. Regular season record of 51-31 earns the club a first round bye and time to prepare for the Boston Celtics, who were eliminating Atlanta in the miniseries. Milwaukee swept Boston in four straight for the right to play eventual champion Philadelphia in the Eastern Conference Finals. Bucks managed just one win in five outings vs. the Sixers but it was an accomplishment in itself as Milwaukee was the only club in the playoffs to beat Philly, whose overall playoff record was 12-1.

1983-84—Once again, and for the fifth consecutive season, the Bucks win their division (four in a row in the Central) while making the NBA's final four for the second straight year. Regular season record of 50-32 didn't earn a bye under the expanded playoff format. Bucks defeated Atlanta 3-2 in the opening round while New Jersey was surprising defending champion Philadelphia winning all three games on the Sixers' court. Milwaukee beat the Nets 4-2 and gained the Eastern Conference Finals vs. Boston, where they lost 4-1. The Celtics went on to win the NBA title.

1984-85—The Central Division title was captured by the Bucks for the fifth straight year making the club division title holders for six consecutive seasons. Taking a 59-23 regular season mark into the playoffs, the Bucks defeated division foe Chicago 3-1. Milwaukee was blindsided in the next round of the playoffs by the Philadelphia 76ers. The Bucks succumbed to the Sixers in four straight contests.

1985-86—Milwaukee notched its sixth straight Central Division title and seventh straight division crown by virtue of a 57-25 slate. The Bucks advanced to the Eastern Conference Finals for the third time in four years by trouncing New Jersey, 3-0, and edging Philadelphia in the Eastern Conference Semifinals, 4-3. Boston derailed the Bucks at that point, sweeping Milwaukee in four straight and going on to the NBA title.

1986-87—The Bucks rolled to their seventh consecutive 50-win season (50-32) and while their streak of seven straight division championships was snapped, that record stands as the second best streak in League history, trailing only Boston's nine straight division crowns dating back to the late 1950's. The Bucks opened the playoffs with a 3-2 series win over the Philadelphia 76ers before being eliminated by the Boston Celtics 4-3.

1987-88—Milwaukee recorded its ninth consecutive winning season at 42-40, but fell short of 50 victories for the first time in eight years. The Bucks also qualified for post-season action for the ninth straight campaign which is second only to the Lakers' string of 12. Milwaukee exited from the playoffs in the first round when Atlanta captured the fifth and deciding game of a hard-fought and well-played series. The Hawks captured the final contest 121-111 and the series 3-2.

1988-89—Milwaukee misses recording its eighth 50-win season in nine years with a 49-33 mark. The club stretches its streak of consecutive winning seasons to 10, second only to the Lakers string of 13. The Bucks surprise pre-season favorite Atlanta in the first round of the playoffs 3-2 before losing four straight to eventual champion Detroit in the Conference Semifinals.

1989-90—Eleven straight winning seasons and a third place finish in the rough Central Division aren't enough to stem the tide vs. the Chicago Bulls who beat the Bucks 3-1 in the opening round. The loss marked only the second time since the 1975-76 playoffs that the Bucks were ousted in the first round of the playoffs.

1990-91—A 48-34 record gives Milwaukee its 12th consecutive winning season and the fourth best mark in the Eastern Conference for the year. For the fourth time in club history the Bucks are swept in a series, this time in the First Round - Best of Five Series in three straight games by Philadelphia.

1998-99—After an eight-year absence from the post-season, the Bucks finish the regular season with a 28-22 record and qualify seventh in the Eastern Conference. Milwaukee draws Indiana in the first round and falls 3-0, including an overtime heartbreaker in game two. The sweep by the Pacers marks just the fifth time in club history that the Bucks are swept in a playoff series.

Ray Allen became the fifth Milwaukee Bucks player to participate in All-Star Saturday special events as he played in and served as spokesman for the 1997 Rookie All-Star game and competed in the slam dunk contest.

At the 1994 NBA All-Star festivities in Minneapolis Eric Murdock competed in the Long Distance Shootout. The other two players who have taken part in the festivities are Craig Hodges (1986, '87 and '88) in the AT&T Long Distance Shootout and Paul Pressey (1986) in the Gatorade Slam Dunk Contest. Here's the recap:

Rookie All-Star Game
1995 @ Phoenix - Glenn Robinson leads victorious East squad with 21 points.
1997 @ Cleveland - Ray Allen.

AT&T Long Distance Shootout
1986 @ Dallas - Craig Hodges finishes second to Boston's Larry Bird.
1987 @ Seattle - Craig Hodges ties for fifth place and Bird wins the event.
1988 @ Chicago - Craig Hodges finishes eighth and Bird wins the event for his third and final time Hodges goes on to win the contest three consecutive times himself in 1990, 1991 and 1992. Two of those crowns were worn as a member of the Chicago Bulls. The third time he was invited back as the defending champion. Hodges also owns the record for the most points scored in a round.
1994 @ Minneapolis - Eric Murdock finished eighth.

Gatorade Slam Dunk Contest
1987 @ Dallas - Paul Pressey finishes sixth and Atlanta's Spud Webb finishes #1 in his hometown.
1997 @ Cleveland - Ray Allen.

ALL-TIME BUCKS ROSTER

Includes games played only with Milwaukee

Three-point field goals came into effect with the 1979-80 season. The line was moved inwards from 23'9" at the apex and 22' in the corners to a uniform 22' arc beginning with the 1994-95 season and back to the original distance with the advent of the 1997-98 season.

NBA-CBA DEVELOPMENTAL AGREEMENT

What follows is a brief summary of key points in the NBA-CBA developmental agreement.

· **Coaching Developmental Program**-Beginning with the 1992-93 season, the NBA and CBA began working together to place former NBA players in CBA coaching positions. Last year, seven CBA head coaches were either former NBA players or coaches.

· **Player Development**-NBA clubs will continue to have the exclusive right to call-up an unlimited number of CBA players during the regular season and playoffs. Last year, 105 former CBA players appeared in the NBA, including 32 call-ups. In 1978-79, the first year of the NBA-CBA developmental agreement, there were only two former CBA players on NBA rosters.

· **Referee Development**-The CBA will continue to serve as the primary training ground for NBA referees. Last year, more than 80% of the referees in the NBA had CBA experience. The CBA will employ a two-person officiating system during the regular season and first round of the conference playoffs. Three referees are utilized during the conference finals and the CBA championship series.

NBA EXPANSION

With the beginning of the 1995-96 season, the NBA welcomed its 28th and 29th franchises as the Toronto Raptors and the Vancouver Grizzlies began play, marking the debut of the first Canadian franchises in the NBA since 1946-47. In 1946, the Toronto Huskies took part in what is recognized as the first NBA game, against the New York Knickerbockers. The Huskies were in existence for only one season, when the league was still known as the BAA (Basketball Association of America).

The 1995-96 campaign marked the NBA's fourth season of expansion since 1980-81 when the Dallas Mavericks became the League's 23rd team. Charlotte and Miami joined the NBA in 1988-89 while Minnesota and Orlando began play during the 1989-90 season.

Vancouver was assigned to play in the Midwest Division of the Western Conference while Toronto was placed in the Central Division of the Eastern Conference. Both teams began stocking their rosters on June 24, 1995 with the Expansion Draft. A coin flip won by Toronto gave the Raptors the option of picking first in the Expansion Draft or selecting sixth, rather than seventh, in the 1995 NBA Draft. Toronto opted to pick first in the Expansion Draft. From there the two clubs alternated choices until one player was selected from each of the 27 teams. No existing team was required to lose more than one of its unprotected players.

As part of their expansion agreements, neither Toronto nor Vancouver were able to select higher than No. 2 in the Draft during the 1996, 1997 and 1998 Drafts.

Both Toronto and Vancouver were permitted to sign free agents, along with the 27 other NBA teams, after the new collective bargaining agreement was reached in September 1995.

NBA SCHEDULING PRIORITIES BY DIVISION

Priorities for scheduling an 82 game season.

1. Each team must play 2 games (1 home, 1 away) versus teams in the opposite conference.
   Total assignments = 28 games (Atlantic, Central Divisions); 30 games (Midwest, Pacific Divisions).

2. Each team must play a minimum of 4 games (2 home, 2 away) versus teams in the same division.
   Total additional assignments = 24 games (Atlantic, Midwest, Pacific Divisions); 28 games (Central Division).

3. a. **Western Conference:** Each team plays 4 games (2 home, 2 away) versus Western Conference teams in the opposite division.
   Total additional assignments = 28 games (Midwest, Pacific Divisions).
   b. **Eastern Conference - Central Division:** Remaining games distributed among five Atlantic Division teams (2 home, 2 away), one Atlantic Division team (2 home, 1 away) and one Atlantic Division team (1 home, 2 away).
   Total additional assignments = 26 games (Central Division).
   c. **Eastern Conference - Atlantic Division:** Games played versus Central Division defined above (3b). Based on that allocation, one Atlantic Division team (Team A) will play away at six Central Division teams twice and two Central Division teams once. The other six Atlantic Division teams will play away at seven Central Division teams twice and one Central Division team once. Also, one Atlantic Division team (Team B) will be home versus six Central Division teams twice and one Central Division team once. Teams A and B therefore will play each other five times (2 home, 3 away or 3 home, 2 away) to complete the 82 game schedule.
   Total additional assignments = 30 games (Atlantic Division).

Losing Team, NBA Finals:	855,000

Total Playoff Pool: $7,500,000

NBA PLAYOFF FORMAT

A total of 16 teams qualify for the NBA Playoffs-the four division winners and the next six teams in each conference based on their won-loss record, regardless of division. The First Round is a best-of-five and each succeeding round, including the NBA Finals, is best-of-seven.

In every series, the home-court advantage in the extra game goes to the team with the better record during the regular season, regardless of its standing in the division race. Thus, if a division winner plays a second-place team from another division that has a better regular season record, the second-place team would get the home-court advantage.

In determining the playoff matchups, the eight qualifiers are ranked Teams 3 through 8 according to their records. (Note: Team 1 in each conference is the division winner with the better record, Team 2 is the other division winner and Teams 3-8 are ranked according to their regular season winning percentage.) The Playoff pairings for the First Round are Teams 1 vs. 8, 2 vs. 7, 3 vs. 6 and 4 vs. 5 in each conference. In the Conference Semifinals, the winner of Teams 1-8 plays the winner of Teams 4-5 and the winner of Teams 2-7 meets the winner of Teams 3-6.

The NBA Finals will be played on a 2-3-2 basis, with the team with the better regular season record getting the home-court advantage for the first and last two games. Other best-of-seven series are 2-2-1-1-1.

Some portions of the playoff format were revised in June, 1983 in a vote by the NBA Board of Governors effective in the 1984 Playoffs. The major revisions included allowance for 16 teams qualifying for the playoffs and the elimination of the First Round bye (formerly known as the best-of-three mini-series) for division winners and inclusion of the First Round best-of-five series.

Eight teams from each conference qualify for the NBA Playoffs. The division winner with the best record in each conference is ranked No. 1, the other division winner is ranked No. 2 and the remaining six teams are ranked Nos. 3-8 according to their won-lost records. The team with the better regular season won-lost record has home-court advantage in each round of the playoffs.

TIE-BREAKING PROCEDURE FOR PLAYOFFS

Following is the tie-breaking procedure that is used to determine teams qualifying for the NBA Playoffs.

Two-team ties:

1. Results head-to-head.
2. Winning percentage within conference.
3. Winning percentage within division (only if tied teams are from the same division).
4. Winning percentage against playoff teams in own conference.
5. Winning percentage against playoff teams in opposite conference.
6. Point differential between offense and defense.

RINGTHEBELL on Archive.org

Multiple-team ties:

1. Winning percentage among all teams tied.
2. Winning percentage within conference.
3. Winning percentage within division (only if tied teams are from the same division).
4. Winning percentage against playoff teams in own conference.
5. Point differential between offense and defense.

Notes:

1. Any ties involving the championship of a division are broken first.
2. If a multiple-team tie is reduced to a two-team tie at any point using the above criteria, the two-team tie will be resolved in accordance with the existing two-team tie procedure.
3. In 1991 the NBA Board of Governors instituted a change involving ties between teams in different conferences, such as what occurred in 1990 between Detroit and Portland. The first tiebreaker will still be head-to-head results, but the second tiebreaker will be the record of the Eastern Conference club against all West teams vs. the record of the Western Conference club against all East teams.

Magic Number:

To determine the magic number, add together the total games remaining for both clubs, divide by two, and subtract the number of games by which one club leads another. That figure is for a tie; add one and you get the magic number.

GLOSSARY OF NBA TERMINOLOGY

ACTIVE LIST: The maximum number of active players on an NBA roster is 12; the minimum is 11. At no time shall a team be permitted to dress fewer than eight players for a regular season game or nine for a playoff game. During the off-season and training camp, teams may carry no more than 20 active players.

AGENT: A person authorized to act for another; one entrusted with handling another's financial affairs.

BONUS: Money paid to an athlete for signing a contract or achieving specified performance standards.

COLLECTIVE BARGAINING AGREEMENT or CBA: An arrangement negotiated between the players' union and the owners in the NBA, which governs all terms and conditions of employment of NBA players by NBA teams. The current CBA runs through the 2000-2001 season.

CONTRACT: Any agreement creating an obligation between two or more persons to do or not do something.

DEFERRED COMPENSATION: Money owed to an athlete for services performed, but payable to the athlete during a later time period.

DEFINED GROSS REVENUES: Revenue derived from, relating to or arising out of the performance of players in NBA basketball games, including exhibition, regular season and playoffs (such as gate receipts, television revenue [network, local, cable], suites, parking, merchandise, etc.)

DRAFT: An organized selection process used by professional teams for choosing athletes for their rosters. The NBA Draft was reduced to two rounds in 1989 as a result of a collective bargaining agreement (CBA) between the NBA and the NBA Players Association. The 1988 Draft ran three rounds. The reduction in the length of the Draft is a trend that began in 1984 when the NBA Board of Governors voted at their summer meetings in Salt Lake City to reduce the Draft from ten to seven rounds. Pursuant to the September 1995 CBA, the Draft will remain two rounds for the length of the CBA.

ELIGIBILITY: A person's status that permits him or her, according to a set of rules, to participate in a particular activity.

FREE AGENT: A player who has completed the playing services called for under his contract and who may negotiate with any team.

GUARANTEED CONTRACT: A contract that pays an athlete whether or not he or she makes the team or performs at a certain level. For the 1995-96 season, all player contracts became guaranteed for the remainder of the season on January 10, 1996.

INJURED LIST: When a player is unable to perform his duties due to injury or illness, his name may be transferred from the Active List to the Injured List. Any player placed on the Injured List, who is replaced on his team's Active List, must sit out a minimum of five of his team's regular season games before he may be restored to the Active List. A team may have no more than three players on the Injured List at any one time.

LONG-TERM CONTRACT: A contract that pays an athlete for a period longer than one year.

NO-CUT CONTRACT: A contract that assures an athlete a spot on a team's roster.

PLAYERS' ASSOCIATION: A union of players in a particular professional sport that represents its collective views to ownership and management.

RENUNCIATION OF AMATEUR ELIGIBILITY: A person whose high school class has graduated and is at least 17 years of age shall become eligible for the NBA College Draft if that person renounces his intercollegiate basketball eligibility by written notice to the NBA at least 45 days prior to the draft. Prior to 45 days before the draft, teams may not make direct or indirect contact with players who have eligibility remaining. Teams may contact players without remaining eligibility, but may not discuss compensation.

ROOM: A team may sign or acquire players to the extent it has room. Room is either (i) the amount by which a team's Team Salary is less than the Salary Cap; or (ii) the amount of an exception to the Salary Cap.

SALARY CAP: A maximum dollar amount of aggregate compensation that individual teams may pay their players during the period from July 1 of a given year to June 30 of the following year.

The salary cap that applied to all NBA teams for the 1998-99 NBA season was $30.0 million, an increase of over $3.1 million from 1997-98. The determination of the salary cap and minimum team salaries are made each summer on the basis of formulas set forth in the Collective Bargaining Agreement between the League and the Players Association.

Salary Cap By Years: 1984-85, $3.6M; 1985-86, $4.233M; 1986-87, $4.945M; 1987-88, $6.164M; 1988-89, $7.232M; 1989-90, $9.802M; 1990-91, $11.871M; 1991-92, $12.5M; 1992-93, $14.0M; 1993-94, $15.175M; 1994-95, $15.964M; 1995-96, $23M; 1996-97, $24.3M; 1997-98, $26.9M.

Maximum Team Salary: The maximum amount that each team can pay in salaries during the NBA season, subject to the rules and exceptions set forth in the Collective Bargaining Agreement. The NBA operates under a "soft" cap, meaning there are exceptions by which teams may pay out more than the maximum team salary.

Minimum Team Salary: Each team must pay at least 75% of the salary cap in salaries during an NBA season.

STANDARD PLAYERS' CONTRACT (UNIFORM CONTRACT): A league employment contract reflecting the collective bargaining agreement provisions. Bonuses and salary are the major items not established as part of the uniform contract.

TEN-DAY CONTRACT: On or after January 10, a team may sign a player to a ten-day contract. This procedure may be used only to replace a player assigned to the Injured List. No player may be signed to more than two ten-day contracts with the same team.

TRADING DEADLINE: No trades are permitted after 9 p.m. (EST) on the 16th Thursday of the regular season (February 17, 2000, this season). From that point until the end of the regular season, player additions must be made through the waiver procedure or by signing free agents.

WAIVERS: From August 15 until the end of the regular season, clubs may claim waived players within 48 hours after notice. Players waived at any other time may be claimed within 10 days. If no team claims the waived player, he becomes a free agent. If more than one team claims a waived player, the team with the lesser record at that time claims the player.

PRINCIPAL ECONOMIC TERMS

The following is an outline of some of the principal economic terms of the new collective bargaining agreement in principle between the NBA and the NBPA.

A. TERM

6 years plus NBA option for a 7th Year
- first 3 years without escrow
- second 3 years with escrow
- NBA option for additional year with escrow

B. SALARY CAP

1. Salary Caps continue at 48% of Basketball Related Income (BRI)
2. The Salary Cap for 1998-99 will be $30 million.
3. The Salary Cap for 1999-00 will be $34 million.

C. Escrow System

1. Beginning with the 2001-02 season, player salaries will be reduced to the extent that total salaries and benefits exceed 55% of BRI, up to a maximum reduction of 10% of salaries and benefits. If the 7th year option is exercised, the escrow percentage will be 57%.
2. If total salaries and benefits exceed the escrow percentage by more than 10% of total salaries and benefits, then any team whose team salary exceeds the 10% "limit" will pay a tax to the NBA equal to the amount of the excess.

D. Salary Cap Exceptions

1. The Bird, Early Bird and Non-Bird exceptions will continue unchanged, subject to limits on "high end" contracts (described below).
2. The $1 Million Exception will continue, subject to the following changes:
   - Increases by $100,000 each year of the agreement, so that in 1998-99 the exception will be for $1 million, in 1999-00 the exception will be for $1.1 million, in 1999-00 the exception will be for $1.2 million, etc.
3. There will be a new "Middle Class" exception equal to:
   - $1.75 million in 1998-99
   - $2.00 million in 1999-00
   - $2.25 million in 2000-01
   - Average player salary for the remainder of the agreement

   The Middle Class exception will be available every year (unlike the $1 Million exception, which is available every other year).

E. Annual Salary Increases

- Bird Contracts — may increase by up to 12.5%
- Other Contracts — may increase by up to 10%.

F. Maximum Player Salaries

In the first year of a new contract, a player may receive the greater of 105% of the player's prior salary, or:
- 0-6 years of service: 25% of Salary Cap, but not less than $9 million
- 7-9 years of service: 30% of Salary Cap, but not less than $11 million
- 10 or more years of service: 35% of Salary Cap, but not less than $14 million

G. Minimum Player Salaries

Minimum salaries will increase based on years of service so that, for example, players with 5 years of service will be paid a minimum of $500,000 and players with 10 or more years of service will be paid a minimum of $1 million.

H. Rookie Salary Scale

Beginning with players selected in the first round of the 1998 Draft, the following rules will apply:
1. Initial rookie scale contracts will be for three years.
2. Teams will have an option for a fourth year, exercisable no later than the start of the player's third season.
3. If option is exercised, player is subject to right of first refusal following year 4.

I. Maximum Contract Length

- Seven years for contracts signed with Bird free agents.
- Six years for other contracts.

J. Other

A. Player early termination options will be allowed, but can take effect no earlier than after the fifth year of the player's contract.

B. "Sign-and-trade" transactions will be allowed, but only for contracts of 3 years or longer.

C. Rookie extenstions will continue to be permitted in the last year of the player's contract (year 4 players drafted beginning in 1998), subject to the high-end limits.
